

Naples City Streetlight Project

Requesting bids for the Hwy 40 Streetlight Project.

Requesting sealed bids for installing 1 streetlight that was damaged.

- Streetlight, pole, arm, break away base, and decorative base to be supplied by City; the rest to be supplied by contractor – which includes wiring from light and outlet to junction box in ground.
- All specifications must be to the same standard as the existing streetlights.

Requesting sealed bids for installing 4 streetlights and 4 foundations for these lights. There are two junction boxes in the area where these are to be installed in the ground.

- Streetlights, poles, arms, break away bases, and decorative bases are supplied by the city; the rest to be supplied by the contractor.
- This is to be done to UDOT specs.
- Contractor will be responsible for all permits and traffic control.
- All specifications must be to the same standard as the existing streetlights.

Please provide 3 references.

*The City reserves the right to
accept and/or reject any and all bids.*
